The Reflexion Above Ground swimming pool is one of our most popular pools because of its durability, strength, and design. The latest injection moulding techniques ensure the resin used for the top rails and wall posts are able to withstand our harsh Canadian winters and continual exposure to sun with ease. The 9" top rails and 7 3/4" wide wall posts provide a distinguished look that pairs perfectly with the Exclusive 54" Signature Wall pattern design.

For easy installation and maintenance, the Reflexion top caps are crafted from two rugged materials that combine to make a durable piece of equipment that is built to last and look great.

We purchased an above ground salt water pool for our new home. Being first time pool owners we were very unsure of what was involved. Carl helped us through the entire process and answered my many emails. The installation process was more than I had anticipated but it all went smoothly...I would totally recommend this store. Customer service was top notch...the pool is up and running, and Carl is still helping me through maintaining proper levels!

TRACY BARNES

Pleasant experience, Brady was fantastic. He helped us choose the right pool for our family and budget. Our installation co-ordinator Erica was amazing. She walked us through the entire process and made sure we were satisfied.

The crew was efficient and polite, they made sure to answer every little question we had. Overall GREAT experience! Definitely worth the investment, years of Pool Fun is in our future!

MAE CERROS

The Aqua Leader Sentinel is a modern Above Ground swimming pool that combines strength and durability with a contemporary design. With precision-molded connections that fit together perfectly every time, this pool provides long-term benefits you're sure to appreciate year after year.

The reliability and structure of the Sentinel's design eliminate the use of angular joints, which produces ultra-strong rails and a stunning continuous curve. This unmatched combination of structural integrity and a clean, contemporary design provides reliable fun for the whole family year after year.

The Aqua Leader Trinity Above Ground swimming pool was designed with three key ingredients in mind – durability, low maintenance, and family fun! The 6" resin top rails and 7 1/2" wall posts were created using a state of the art injection moulding process for superior strength and preservation over time that also makes these pieces salt-water friendly.

The top rails feature unique channels that work to capture water making your rails less slippery when entering and exiting the pool. The 54" wall is the tallest we offer making it the perfect option for families with kids from young to old and swimmers from beginner to professional.

Last year we purchased an above ground pool. We were new to the pool scene and were full of questions which we put to Mark Mawson. Mark is extremely knowledgeable and easy to deal with. This put us at ease while in the process of purchasing a pool...It doesn't matter who we deal with they are very professional and always willing to help. I would highly recommend them for the great service they provide.

TIM LAINE

Just want to thank Dan for his patience. He was very helpful and knew what he was talking about. We wanted our above ground pool installed for my daughter's birthday in August. Dan told us not to worry and he was right. Matt and his crew installed our pool one week before my daughters birthday. The crew was amazing, very professional. My family can't wait for next summer to enjoy the pool again. Thanks again!

CLAUDIO LANZILLOTTA

I recently purchased an above ground pool and my experience was fantastic. My sales person was Carl Hayes and I have to say he goes above and beyond for his customers. Carl is very friendly and helpful, he made sure I was happy with everything. I highly recommend your store and be sure to ask for Carl!

KIM POWELL

The Atlantic Neptune Above Ground swimming pool is an incredible option if you're looking for something that will last. The 7" steel top rails and 7" steel uprights were built using corrugated steel to provide the strength and resilience and Texture-Kote finish has been placed on all the uprights and rails to provide 'all weather' protection with added resistance against corrosion, scratching, and damaging UV rays.

The Neptune is also built to impress with the 52" Fallstone Wall and Greystone River Tile Liner that will brighten up any backyard.
