

HAYWARD®

Quick Reference Guide

OmniLogic®

PLEASE LEAVE THIS GUIDE IN THE OMNILOGIC

Basic MSP Navigation

Dashboard:

NOT Body of Water (BOW) specific

- System alarms
- Configuration
- Unidentified item
- Power OFF/Service
- View next screen
- View previous screen

Change the Body of Water Displayed

On left side of dashboard:

- select area of screen
- swipe finger then release

Note: swipe works in either direction

Access Features for a Specific Body of Water

On left side of dashboard:

- tap central area of the screen (where temp or dashes is/are displayed)
- tap feature to turn on or change

Note: temperature only shows a numeric value if pump is running

Quick Reference Guide - Navigation Help

Turning Filter Pump ON

1. select the Body of Water
2. select filter pump icon 
3. slide switch in top left to ON

Daylight Mode

On right side of dashboard:

- locate and tap daylight icon

Note: icon may not appear on first dashboard screen, use arrows to locate if necessary

On right side of dashboard:

- select daylight icon again to reverse

Note: daylight mode is ideal for bright or high glare situations

Service Mode

Use Service Mode to temporarily suspend all automation including schedules & themes

On bottom left of dashboard:

- select power icon
- select service mode icon
- select service icon again to reverse

Note: if system is left in service mode all automatic events will be disrupted
